- **Development Tools:** Git, Figma, MVC Architecture, n8n (Automation & APIs).
- **Soft Skills:** Effective communication, Problem-solving, Adaptability.

LANGUAGES

- **Spanish:** Native
- **English:** Intermediate (reading, writing, speaking)

PROFILE

Advanced IT Application Development student and Web Development Intern. I develop applications integrating backend (Java, SQL) and frontend (JavaScript, HTML, CSS), with a strong focus on UX/UI principles. Currently, I am expanding my tech stack through React JS and Angular seminars, and designing process automations using n8n. I am proactive, highly adaptable to hybrid ecosystems, and driven to articulate technical ideas to generate a real impact on the final product.

EXPERIENCE

Web Development Intern | Binculo (March 2026 – Present)

- Collaborate in the design, development, and maintenance of web solutions.
- Integration into a professional IT team, understanding project requirements to provide technical solutions that add value to the end-user experience.
- Application of good programming practices and software development methodologies.

EDUCATION

PROFESSIONAL AND PERSONAL COMPUTER TECHNICIAN
